Manufacturer [Qingdao HongKing Maxwarm Co., Ltd](#)

Description

Used for reptiles, plants, or tropical fish. And it kept them pretty snug and safe. Each pack lasted about 72 hours at full strength and kept their enclosure above the exterior ambient temperature. Make sure to wrap it in newspaper and avoid direct contact with skin or scales if you're transporting reptiles. Left unattended, it could cause a burn.

As a professional multi-purpose shipping warmer manufacturer, we can custom your own brand premium shipping warmer according to your requirements. If you have a sample for reference, we can custom shipping warmer according to your sample. For example, we can customize the heating duration time, the size, and the packaging bag. And, if you don't have a sample for reference, we can send our sample to you to test the quality. Then, we can OEM/ODM shipping warmer. Just free free to contact the shipping warmer factory!

Shipping Warmer
